Terry Tran from The Freedom Trader is an excellent teacher and mentor. I knew very little about investing in shares before joining the program. Now I feel confident and well supported. Tricia and Allan provide great support and always answer questions quickly and clearly. Excellent program

My experience with Freedom Trader

My experience over the past 2years with Terry, Tricia, Alan and the team at Freedom Trader has been amazing. The learning program is easy to follow and the on going support is confidence building. What I like most about FT, is the fact that you are in full control of your investing. They don't trade for you, they teach, mentor and support you to trade directly in the market. Keep up the good work Team.

The Freedom Trader was exactly what I had been looking for! I am a busy mum of two, working on our farm and trying to build a portfolio for us off farm.

This is a common sense approach to share trading and investing that was explained in a relaxed and common sense way. If you are sitting back waiting for the right course to commit to as you start your share trading journey.. THIS IS IT.

Terry is real, relatable, honest and connected. I have learnt so much from him and this course.

A training and support platform and...

A training and support platform and community led by Terry Tran. The course is brilliant with so many added-value tools and tips; the system I have learned in 6-8 weeks is a great foundation for success. The training support and webinars are well-run, professional and designed for success. There is a lot to learn and practice, and the Freedom Trader system teaches a high-integrity approach that suits any level of entry.

Freedom Trader is an amazing resource for share traders

I never expected to be a person interested in the stock market! Freedom Trader provides the most fantastic resources with spreadsheets, courses, advice and information on every aspect of buying and selling shares. Terry and his team are so generous and patient answering questions, and the bi-weekly live sessions on Zoom are incredibly valuable for keeping up to date with changing financial conditions around the world, deep dives into particular stocks, live Q&A and other useful information. Freedom Trader membership is a worthy investment.

I trust The Freedom Trader.

I'd been considering stock market investments for many years and even invested some dollars but never got going as I just didn't trust what was being promoted. I recently did a tree change to a rural town based around beef farming and tourism and came across Terry. I attended a group session and Terry came across as authentic and knowledgeable. I then had a solid conversation with Terry and this sealed the deal. I'm so impressed with the robust no nonsense approach. The distillation of a lifetime of knowledge and hard won experience is clear. Terry has a great team as well with head trainer Tricia - who is a very good communicator and understands the method inside out. Recommend 100%.

Terry has been able to turn our mindset around with the opportunities we can create for our future on farm and off. Who knew we could be trading and investing in the share market confidently and securely - not me until I did the Blueprint course. This course i completed in 2021 and it has given me a level of comfort to keep investing and growing our wealth. Thank you Terry and Team.

I highly recommend The Freedom Trader

I joined Terry Tran and The Freedom Trader community six months ago and it has been fantastic. I have always been interested in share trading but overwhelmed by it, however now I'm already trading. Terry has created a Blueprint system that is easy to follow and understand and reduces risk. Terry and his team provide ongoing coaching sessions, in-depth market updates & information, excellent tools & tech tips, and answer all questions people have. The Freedom Trader is not just an educational program that can change your life, it's also an amazing community of like minded supportive people. Thanks Terry, Tricia and team.
